

# The dePaul School

Empowering students who learn differently...since 1983!

The dePaul School offers free reading assessments that provide information about:

- Your child's current reading levels (percentile rank and grade equivalents)
- Skills in reading that your child has mastered and skills that need to be taught
- Information on your child's reading strengths and challenges

However, **we are not psychologists and cannot do diagnostic testing.** If you suspect your child has dyslexia, another learning disability, or attention deficits, please seek an evaluation from a psychologist or certified evaluator. The following providers offer diagnostic, psychoeducational, and/or neuropsychological testing:

## Pinellas County
