

The dePaul School

Empowering Students Who Learn Differently Since 1983

The dePaul School now offers a dyslexia screener that will tell if signs of dyslexia are present in your child starting at age 5. To learn more about the screener or to make an appointment, contact admissions@thedepaulschool.org or call 727-589-6685.

We are not psychologists and our screener is NOT a diagnosis. If our screener indicates a high risk for dyslexia we will recommend next steps, which will always include a formal evaluation from a psychologist or certified evaluator. An official diagnosis is necessary to qualify for the FES-UA scholarship.
