THE DEPAUL SCHOOL FOR DYSLEXIA

NEWSLETTER

FALL 2025

School News in a Glimpse

Our **summer** program was an intense and impactful month of learning. Parents are reporting that their students started the school year with courage, confidence and curiosity.

Outreach and Support

dePaul conducted 9 dyslexia screeners from South St. Pete to Oldsmar screening 61 students for free. We also provide resources for additional testing, support and guidance. We presented or showcased at the Child Advocacy Expo, TB Homeschool Network, FI Council of Exceptional Students and FCIS conferences to elevate awareness. You can also catch us at Rowdies games, Thrashers, and Rays as we sign the National Anthem before games!

Consulting and Training

dePaul partners with The University of Tampa to educate their students on how to teach dyslexic students as well as participate in panel discussions at SPC. This year we've partnered with 2 private schools and a charter school to elevate their support programs.

The first ever **kindergarten** class opened at dePaul this fall with students learning structured literacy from the start! No more waiting to fail. Every student can learn to read using structured literacy - we've been doing it for over 40 years!

Alumni Update:

Taylor is a freshman at Keystone Prep and is grateful for the great experience in dePaul's middle school. She is feeling confident in all of her classes!

Ella is in 4th grade at Indian Rocks Beach Christian and mom reports that "...she scored amazingly well on her reading and ELA MAP testing!"

Carmella transitioned to her local public school for 5th grade and just passed the FAST standardized test!
